Confess !
Why did you kill the baby ?
Why were you r ding a horse ?
To get r d of the baby ?
Because you don't want to bear my ch ld ?
So you planned to k ll it without my awareness?

I was ...
I was pregnant ?
Did ...
Did something happen to it ?
Because I rode a horse ?
Because I fell ?

Why didn't you
just let me die
Someone like me
It must have been punishment
The baby mustn't have lived
me trying to leave

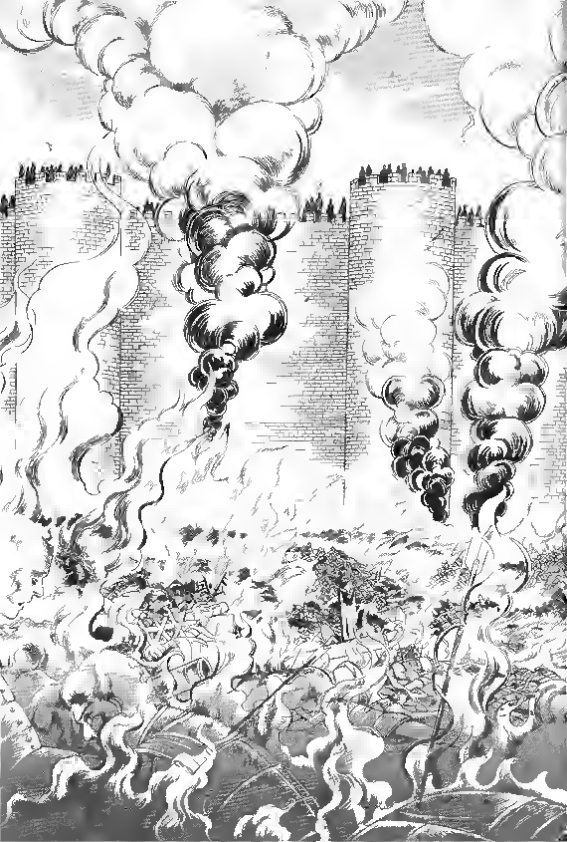
Trying to leave ?
Answer me !
Yes...

How dare you...
So, you have such a thought...
Listen carefully !
Even if you die, I will not let you go free.

www.janines.com

Sir Garashon, what brings you here so early in the morning?
I should leave ...
M'lady ?
She is sleeping now ... She was summoned by the majesty late at night because of his mistress' incident
Have you heard of the incident ?
Yes I have
The majesty's personality is exactly like lord Tor's
On the other hand ... our lady's personality is
She has the toughness of the Tor

But there s softness and merc ful warmth underneath
As f lady Ol v a
I wonder f th s w ll be my last t me v sit ng her
You see, when you get th s old every day would well be your last day
You should see her before leav ng
Aye
Posha please look after her
She s softer than she looks



Odor of burn ng corpses s someth ng

Where have you been ?
I've been with lady Barder
At lady Sharu s place

프린세스

Why ....
Why is Eshild always ....
Why s she always with you

How did you manage to stay at lady Sharu's ?
I didn't know you knew her.
We once knew each other a long t me ago
There are only females n her house I guess your presence could comfort a r of her house at a t me l ke th s
It would certa nly better than just mother and daughter n the house
.....You didn't know ?
Lady Sharu is on a trip and her daughter was taken to the royal castle by order of the king. So, no one else is in the house.

Are you saying you and Eshild are in an empty house ?
It somehow became so
Why would the king bring lady Tera to the castle ?
You are more concerned about lady Tera than lady Barder ?

She's with you ...
She s f ne because she s with me
I am sure she's f ne
That s cert naly poss ble
Except her m nd
She is capable of defend ng herself without me

Yes, m'lady.
D d you sent servants to lady Lala s quarter ?
I d d so However

Fake money ?

Yes I am certain
They are coated with gold on surface and weight the same So no one would have known that it was fake by just looking at them
Interesting

it looks and feels exactly like the real one
Who was able to copy the quality of Ramras gold coin that is as highly valued as Venezuela's?
it is hard to find out I obtained the coins from merchants
I believe they are already spread quite a bit
Not only does he have uncontrolable greed... he's also too cunning
Yes ?

But Sibel doesn't want to see his aunt
Educate him!
Make it so that he will smile when he's seeing his aunt even if it is not so in his mind
A child's mind cannot be forced like that

Lala s mnd s more mportant

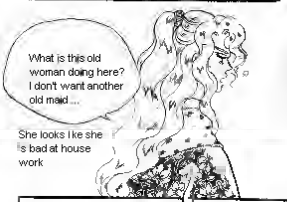
Skadei must have lower standard than his father, seeing he even bothered with a woman like this ....
She must be speechless because of my beauty. You don't see a beauty like this in a remote region like this ....



What is this old woman doing here? I don't want another old maid ....
She looks like she is bad at house work

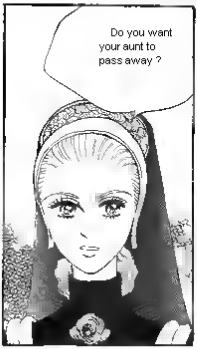
Say what ? "Old woman" ? You want to roll on the floor with that b g stomach of yours ?

So you are the k d Rebekah
You look older than me
k d ?

I am like your mother in law So act accordingly
Hey what is this woman saying ?
Hey Isabella this lady s
"Hey Isabella"? How dare you !
Do you want to be punished to death ?
The lady has put me in charge of this castle.
I was told who she is and I am the one who will raise her child after she dies !

This is unbelievable !
What is that woman ?
she is going to raise my baby ?
memories are coming back
Don't take that tone with me, old man !
I can make you exiled from here !
You will go back with Isabella
I want you at least let Rebakah live until birth of her child
Isabella's words cannot be trusted
She was quiet in the carriage
So, I thought she changed
suresure
This is all my fault
It was me who brought her into this castle in the first place

I was always jealous ....
Greten's room ...
This room was supposed to become mine after I kick her out ...
But who cares about a room now
What a turn of event huh ?



Do you want your aunt to pass away ?

Do you not want to see her at all anymore?
Do you want her to leave here ?
If this is not so there is only you who can save your aunt who is refusing to be healed

In order to become a proper king,
You will have to do things you do not want.
And you will have to control yourself when there is something you want.
I believe I told you that charisma is an important part of lordship
I am counting on you

Where are you going ?
I am going to the castle
It is better for you to stay here
Well if this place is to be plundered.. that means the royal casle wouldn't be safe..either
There is no sign of plunder yet But when there is

Don't worry about me
I've been alone in my entire life
That too
I've had such a wish for such a long time that I've grown tired of it
If you were a man
... I hope to see you again ...
If we survive ...

Mlady you look
a little tired
Please rest
You look a little
tired as well

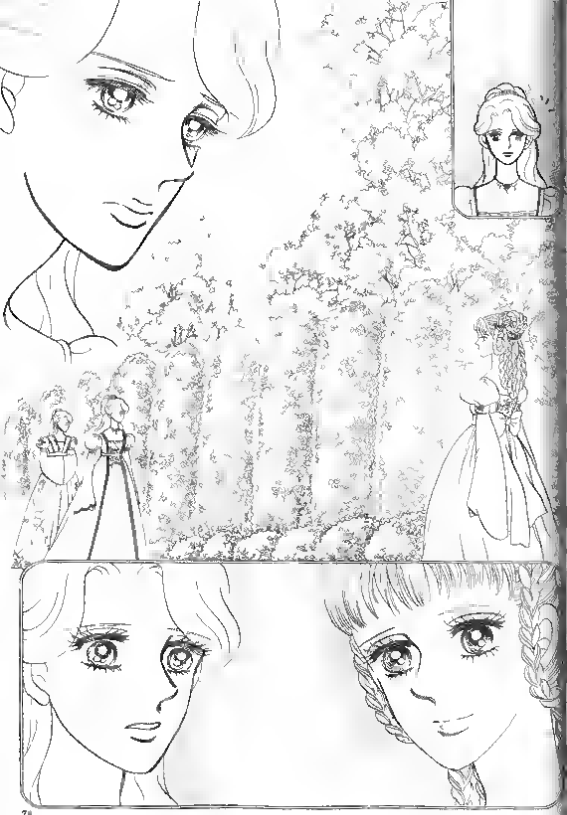
I am fine
Then shall we take a little break ?
I will sew the rest I want you to rest
I was going to sew these by myself even if the royal tailors weren't called to battle
I can't be of any help for war And the majesty isn't even sleeping properly at war
I am sorry
for being burden to you at a time like this

... In this large castle ...
I don't have any brothers and friends ...
And you came
You have no idea that how glad I am to spend t me with you
I feel
the same way

I've never
been with someone of my age
and talk
laugh
Socializing together

I am really glad that the someone is a queen of a country

But when you find out I am a sister of someone
You will hate me



I heard there s a new guest n the castle I was comng to see the guest

I, I was on my way to greet you, m'lady.

You must be the guest

I am sorry for making you wait long enough that you'd come.

I guess I was a little hasty

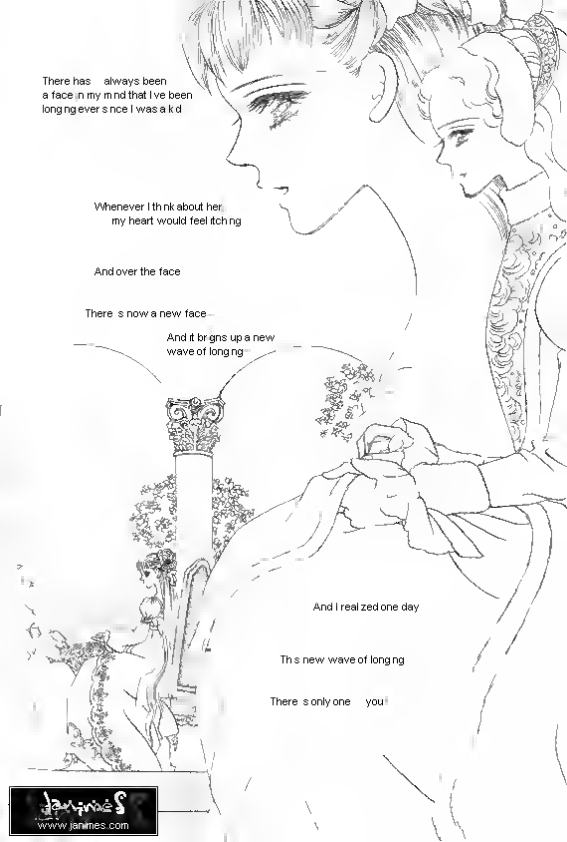
Dear the king of Ramra

Please forg ve me

that I am a s ster of the k'ng you are f ghting

and I've been brought to here to become a hostage for a day when you w ll have to negot ate a deal with my l fe

I couldn't tell the queen of Ramra who has such warm sm le



There has always been
a face in my mind that I've been
longing ever since I was a kid
Whenever I think about her,
my heart would feel itching
And over the face
There is now a new face
And it brings up a new
wave of longing
And I realized one day
This new wave of longing
There is only one you!

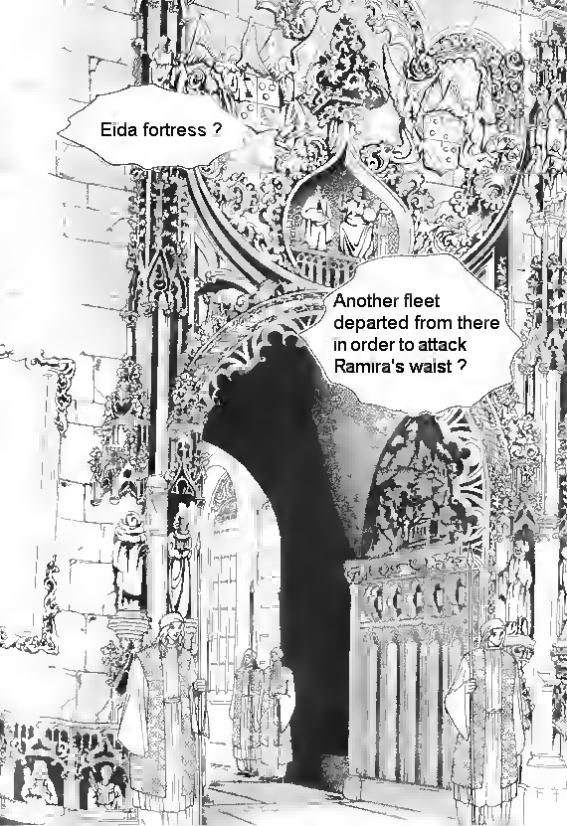
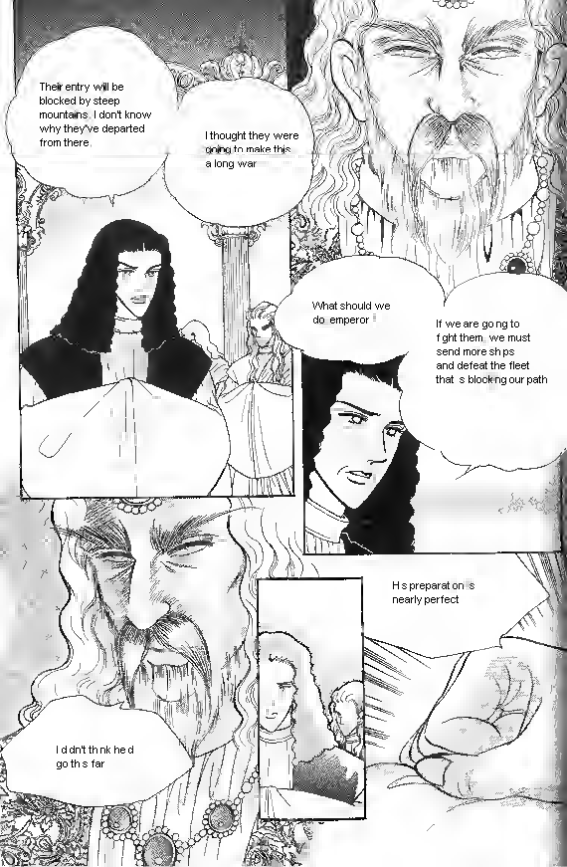
Sei - !
Greetings, my queen
Sei what brings you here all the sudden ?

Lady Tera is here as well, I see.
Do you know each other ?
He has helped me a great deal
Yes. Se always helps people
You look pale
I am f ne

Yes ...
You look healthy indeed ...
By the way
May I stay here for a while ?
Wow, really ?

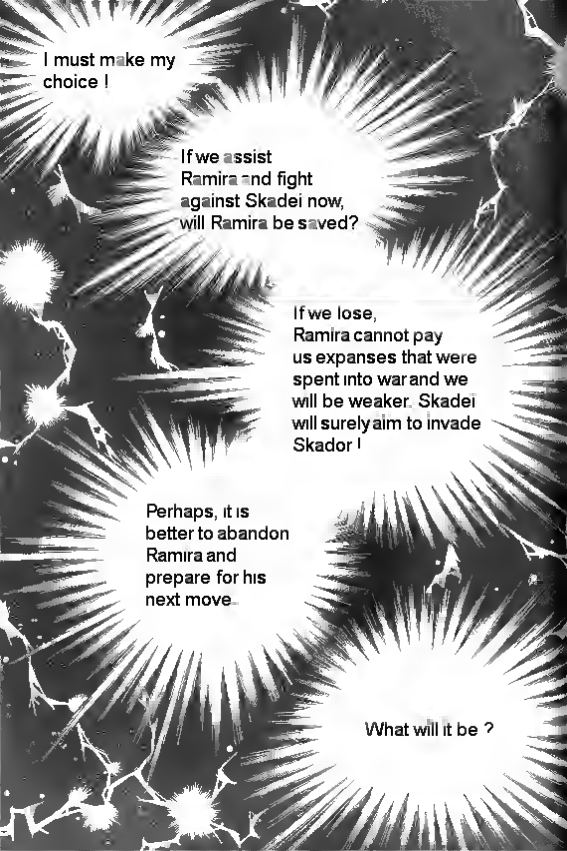


Eida fortress ?
Another fleet departed from there in order to attack Ramira's waist ?



Their entry will be blocked by steep mountains. I don't know why they've departed from there.
I thought they were going to make this a long war
What should we do, emperor?
If we are going to fight them, we must send more ships and defeat the fleet that is blocking our path
His preparation is nearly perfect
I didn't think he'd go this far

Ramira's prime minister will only be a puppet ...
Even though the prime minister will think that he started his revolt ...,
I am certain now that he has only been manipulated
So he's going to conquer Ramra ?



I must make my choice !
If we assist Ramira and fight against Skadei now, will Ramira be saved?
If we lose, Ramira cannot pay us expanses that were spent into war and we will be weaker. Skadei will surely aim to invade Skador !
Perhaps, it is better to abandon Ramira and prepare for his next move.
What will it be ?

Sibel !

He w ll say that he won't care

My l fe s not even worth the trouble

Be careful
It s dark and a cl ff

Don't worry I have a good luck charm with me n here
A rose s n here

No wonder they wouldn't dare to attack from this side.

Uncle, be careful.
Stop acting like an old man

No worries
I've been to many countries and wars ever since I was young
I will accomplish the majesty's order and come back.
So, just make sure the castle is secured.

We should at least get to marry a woman before having to face our demise huh?
Wish me luck

Do you know what this is ?
Doesn't it used as spice ?
Yes, it alone is just a spice. But, if you combine it with Davi, a known poisonous herb, it can be antidote.
But ratio must be correct. Otherwise, it will be just poisonous.
The ratio is 1 : 1
Davi is only found in most area where mushrooms grow. Its color is bright red. So you should be able to locate them easily

This herb can be painkiller. Depending on how you mix it with herb, it can completely paralysis an entire human body.
Some use this when they perform a surgery.
